

MVRRC Target Shooting for Score (TSS) Program

Entry form

Complete this form, then carefully fold and enclose it, along with a toonie, into a plastic sandwich bag. Seal the bag and place it into the TSS Entry form box (via the access slot). If you are entering a rifle in multiple classes the fee is still one toonie. To be clear... complete one entry form per rifle. Cost is one toonie per rifle.

Member Name: (Please Print clearly) _____

Membership number: _____ Expiry date: _____

Check box if you are a new member , just recently joining the MVRRC club, between the target deadline dates of June 30,2021 and Sept. 30, 2021.

Alias name/nickname to be used for publicly displayed results: _____

Contact information: Phone _____ Email: _____

C.F. Traditional Hunting Rifle ("Deer") shooting 50/100/200_benchrest _____

Military - full furniture ("Milsurp") shooting 100/200 yrd benchrest _____

Centerfire precision Open ("Target") shooting 200/300 benchrest _____

Other: _____ shooting _____

Signature: _____ Date: _____ Time: _____

Entry form details

Any rifle can be used in multiple classes *if* it meets the requirements of those classes (See Class Specific rules).

Alias names will be on a "First come/First served" basis using the date/time indicated on the entry form. **Tip: To secure a popular alias name get at least one entry form in early for a rifle you're sure you will be shooting.** Different alias' can be used for different classes if you wish. Be creative.

Contact information: The contact information is being requested in case there is a question regarding completion of your form. It will not be made available to any outside sources.

"Target rifle barrel" Definition: For the MVRRC TSS program... any barrel with an O.D. measurement 2" back from the muzzle end that is 3/4" or larger will be considered a "target barrel". If in doubt, carefully measure the barrel using a set of vernier calipers. A measurement of 0.75" or larger is a target barrel. Note: Most rimfire and centerfire hunting rifle barrel outside diameter measurements are between 9/16" and 11/16" (.5625"-.6875"). Target rifle barrels usually measure 3/4" and over. We measure 2" back from the end of the muzzle because some heavy barrels taper off quickly in the front 2".
